CE 0481

Vostra GmbH was founded in 1985 with the goal of developing, manufacturing and marketing high-quality consumables for the neurosurgery, ENT and general surgery.

Our customers needs have always been the focus in our strive for excellence. Dedication and expertise have nourished an international customer base which we supply on short notice – world wide.

Vostra – excellence in medical products.

**Tapered pads for ENT**

24-thread swab with safety string

# Tapered pads for ENT

## Product Features

### 24-thread swab with safety string – wide range of uses in ENT

Tapered pads are made of gauze in accordance with DIN 61630 and are specially designed for applications in ENT. The sewn-in reinforced thread and the x-ray markings make it convenient and easy to use. It is manufactured in conformity with EC Directives under closely monitored cleanroom conditions.

Tapered pads have a wide range of applications. For example, it can be used with the following indications:

- anesthetize of nose before / after surgery
- outpatient treatment of nose
- after-treatment of surgeries
- cleaning of maxillary sinus

### Features

#### Safety

The attached string and the sewn-in x-ray marking make it particularly safe to use.

#### Range of sizes

The comprehensive range of sizes includes swabs from 30 mm to 130 mm.

#### Quality

Tapered pads are manufactured with great care under meticulously defined cleanroom conditions. A continuous microbiological process control guarantees maximum product safety.
