CE 0481

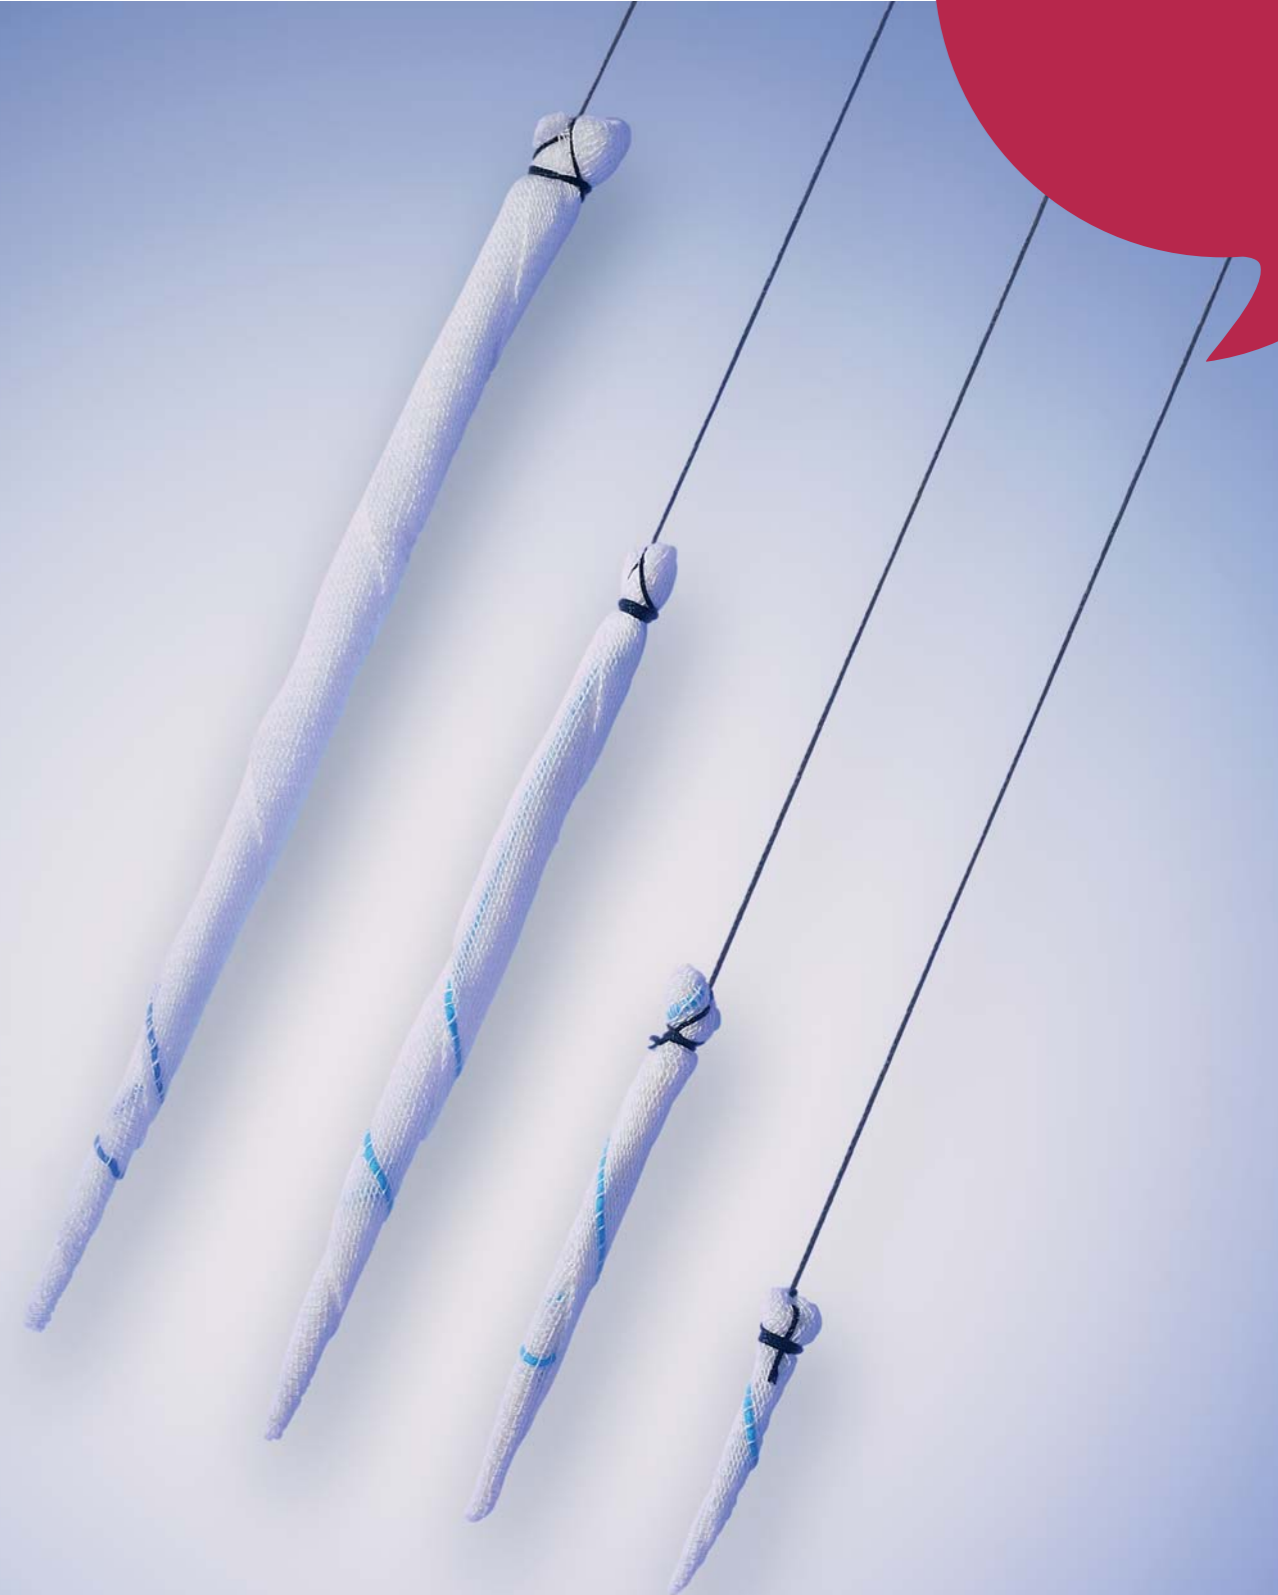

Vostra GmbH was founded in 1985 with the goal of developing, manufacturing and marketing high-quality consumables for the neurosurgery, ENT and general surgery.

Our customers needs have always been the focus in our strive for excellence. Dedication and expertise have nourished an international customer base which we supply on short notice – world wide.

Vostra – excellence in medical products.

## Neuromullsan®

24-thread swab with safety string

# Neuromullsan®

## Product Features

### 24-thread swab with safety string – wide range of uses in neurosurgery

Neuromullsan® is made of gauze in accordance with DIN 61630 and is specially designed for applications in neurosurgery and orthopaedics. A special feature is the closed end-section that prevents the edges from unravelling. The sewn-in reinforced string and the x-ray markings make it convenient and easy to use. It is manufactured in conformity with EC Directives under closely monitored cleanroom conditions.

Neuromullsan® has a wide range of applications. For example, it can be used with the following indications:

- spinal surgery
- protection during aspiration in epidural tissue
- protection of the dura mater and the nerve root
- cleaning of intervertebral disc space

### Features

#### Safety

The attached thread and the sewn-in x-ray marking make it particularly safe to use.

#### Material properties

A complex manufacturing process prevents the end of the swab from unravelling.

#### Range of sizes

The comprehensive range of sizes includes swabs from 30 mm to 150 mm.

#### Quality

Neuromullsan® is manufactured with great care under meticulously defined cleanroom conditions. A continuous microbiological process control guarantees maximum product safety.
